IIM Raipur and DHA Delhi proudly announce commencement of Batch-II

● **For India's premier PG & Diploma Certificate Prog in Digital Health**

Raipur, Aug 01: Indian Institute of Management (IIM) Raipur and Digital Health Academy to commence the second batch of the Post Graduate Certificate Programme in Digital Health (PGCPDH) and Diploma Programme in Digital Health (DPDH). It is a significant step in advancing the digital health landscape in India. The programmes aim to develop future leaders who will drive the digital health revolution in the country, bridging the gap between healthcare and technology. Here are some key details about the programmes:

Programme Objective: The PGCPDH and DPDH programmes are designed to provide a comprehensive understanding of the intersection of healthcare and technology. Participants will gain insights into various aspects of digital health, including telemedicine, data analytics, digital health policies, and entrepreneurship. Duration: The PGCPDH and DPDH is a year-long programme, providing participants with a thorough and in-depth learning experience. The curriculum includes online classes, interactive sessions, live discussions, and case studies, enabling participants to grasp the intricacies of digital health. Personal Immersion Programme: As part of the PGCPDH and DPDH, participants will have the opportunity to attend a three-day personal immersion programme at IIM Raipur. This on-campus experience will offer hands-on learning and networking opportunities.

Certification: Upon successful completion of the programme, participants will be awarded a Post Graduate Certificate in Digital Health and Diploma Certificate in Digital Health jointly from IIM Raipur and Digital Health Academy, New Delhi.

Application Process: The registration for the programme commenced on 15th July 2023. Early applications are accepted until 25th August 2023, and the final deadline for applications is 25th September 2023.

The PGCPDH and DPDH programmes hold immense potential in equipping professionals with the necessary knowledge and skills to excel in the rapidly evolving field of digital health in India. As the demand for digital health solutions and innovations continues to grow, these programmes will empower future leaders to drive positive change and transformation in the healthcare sector.
