

IIM Raipur hosts ICRE'23

■ **Staff Reporter**

RAIPUR, Nov 29

INDIAN Institute of Management Raipur is hosting the International Conference on Regenerative Ecosystem 2023 (ICRE'23) at its picturesque campus in Naya Raipur on December 1 and 2.

The inaugural ceremony will feature Padma Jadav Payeng, environment activist and forestry worker commonly known as 'Forest Man of India'.

Additionally, Director of UoA's Centre for Sustainable Operations and Resilient Supply Chain at ISER and ABS Dr Kannan Govindhan will be delivering the keynote address.

This significant event will be convened by Professor Assistant Professor Operations and Quantity Tech Rajeev A and Assistant Professor Marketing Professor J Daniel Inbaraj. ICRE'23 is dedicated to exploring the critical role of regenerative ecosystems in combating the adverse impacts of climate change, biodiversity loss and habitat destruction. The conference will delve into three predominant frame-

works, Circular Economy, Social and Solidarity Economy, and Ecological Economics.

Research papers that span multi-disciplinary themes such as relationships, institutions, primary, secondary, and tertiary production, organisation, governance, and ecology are invited in the conference.

These themes will be examined within the specific contexts of various ecosystems including natural, indigenous, rural, urban, and industrial ecosystems. Contributions can include cases, stories or demonstrations showcasing regenerative capacities in these diverse settings.

ICRE'23 aims to facilitate dialogue and collaboration among experts and stakeholders to tackle environmental challenges and explore innovative solutions for ecosystem restoration and regeneration.

The event promises to serve as a pivotal platform for knowledge exchange, featuring cutting-edge research and fostering partnerships to propel the world towards a more sustainable and regenerative future.
