

Chief Minister Vishnu Deo Sai listening to deliberations on Good Governance at IIM.

Talks held on Road Map for Viksit Ch'garh

Ch'garh Govt engages renowned experts from across the country for deliberations on Good Governance and Development.

Central Chronicle News

RAIPUR: Governance and management are two distinct terms yet they are inter-connected. While one is responsible for policy-making, the other focuses on implementation. In the Indian democratic framework, Government is responsible for fulfilling expectations of the citizens, while public representatives generally have limited involvement in the management-related matters. However, a recent innovative initiative in Chhattisgarh aims

to bridge this gap.

With the objective to impart the nuances of management to the Ministers of Chhattisgarh, promote collaboration, innovation and foresight, and discuss necessary reforms for the state, the Indian Institute of Management (IIM), Raipur designed and organized a unique event called "Chintan Shivir" from May 31 to June 1. Chintan Shivir is the first-of-its-kind event of the country initiated by Vishnu Deo Sai's government. This intellectual endeavor by IIM aimed to
