ABOUT IIM RAIPUR

On November 1, 2000, Chhattisgarh, the 26th state of the Union of India, came into existence after the division of Madhya Pradesh. Seeing the region's plight, neglect, and slow development, former Prime Minister Atal Bihari Vajpayee decided to create the new state of Chhattisgarh. On its first Foundation Day, Chhattisgarh had unexplored reserves, an undermined local population, a few dams, and insurgency concerns. The birth of Chhattisgarh made the impression that another backward, underdeveloped and gloomy region would now get recognition on the map of India. In the last 22 years of its existence, the state has created a sound economy based on an agricultural sector which has shown impressive growth and industrial production driven by thermal power plants. Chhattisgarh has been consistently ranked among top 3 investment destinations in the country since 2006. The state of

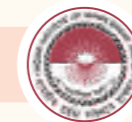

Chhattisgarh has a robust economy which has witnessed a double-digit growth for close to eight years since 2006. Among the many successful policies and development projects, one of the most ambitious ventures by the state government is Naya Raipur, Chhattisgarh's new capital city, which was recognized as world's first ever integrated township in January 2017. It caters to the need of the various industrial areas nearby like Bhilai, Bilaspur, Urla, Sirgitti and Bhanpuri which made the state one of the leading producers of steel, iron, aluminum, cement, engineering products, minerals, handloom and blended yarns of the country. It is due to these efforts that the state has made great strides in industrial production and is punching much above its weight when it comes to contribution to the national economy.

Endless Possibilities: The institute is operating from its new campus in Atal Nagar, Naya Raipur, spread out in 200 acres. The state-of-the-art campus operating at Naya Raipur is a blend of modernity and cultural heritage of Chhattisgarh.

The campus depicts modern architecture and assimilates the culture and traditions of Chhattisgarh. It facilitates the institutes' vision to be world class and has a global outlook embedded with regional and national focus.
